

Walk for World Peace Project 2026

Location: Taiwan

Route: From the northernmost city, **Keelung**, to the southernmost city, **Hengchun**

Dates: March 14–29, 2026

Background and Rationale

The **Walk for World Peace** is a campaign dedicated to fostering peace and harmony among people worldwide. The project encourages individuals to love peace, refrain from harming or exploiting others, and coexist harmoniously with respect for nature, equality, fairness, and justice. Although many organizations and institutions actively promote peace, violence, oppression, and war continue to occur in various regions of the world.

The Walk for World Peace uses **walking as a symbolic and practical means** to promote peace. Walking allows direct engagement with individuals and communities along the route, while encouraging participants to live by moral and ethical principles in their daily lives.

Throughout the journey, activities will be organized to promote global peace. True peace begins with **inner development**—cultivating a stable, mindful, and wholesome mind. When the mind is well-trained and grounded, inner peace naturally arises. External peace, in turn, refers to living together without harming or destroying others, including both humans and animals.

In 2026, the Walk for World Peace will take place in **Taiwan**, an island located off the eastern coast of Asia, during the month of March.

The **Walk for World Peace** is a **non-profit organization** officially registered under the name **“WALK FOR WORLD PEACE.”**
